## Maybe that hill is not there, after all-

VERY often the hill we seem to be climbing is made out of the common mistakes of diet which starve tissues and nerves and slow down energies.

How smooth and level the path seemed to be when we were younger.

Simple, natural food may level that hill to a smooth path again. Why not try it?

Begin today with a dish of Grape-Nuts with cream or milk -and fresh or preserved fruit added if you like.

Keep on with this crisp, delicious, strengthening food in place of heavy, ill-assorted, starchy breakfasts and lunches-and see if the old-time zest and speed on the old-time level path doesn't come back again.
